

3HUE + AiVRIC — Company profile (public sources, verified 2026-09-02)

3HUE (3hue.net) — legal entity 3HUE Executive Consulting LLC

- Founder/CEO: Andrew Ramirez (LinkedIn: <https://www.linkedin.com/in/aramirez-it/>). Site booking handle "aramirez-vcio".
- Incorporated 7/27/2015 (BBB) — 11 years in business. BBB Accredited since 8/28/2025, A+ rating. Address on BBB: 3301 N University Dr Ste 100, Coral Springs, FL 33065. Crunchbase lists Plantation, FL; 1–10 employees; no outside funding.
- BBB: <https://www.bbb.org/us/fl/plantation/profile/business-consultant/3hue-executive-consulting-llc-0633-90570181>
- Crunchbase: <https://www.crunchbase.com/organization/3hue-executive-consulting>
- ZoomInfo: <https://www.zoominfo.com/c/3hue-executive-consulting-llc/403872321>
- D&B: https://www.dnb.com/business-directory/company-profiles/3hue_executive_consulting_llc.a1334a98bf9f1d43863fd48c07876586.html
- BBB service list: architecture assessment, cyber risk advisory, digital transformation consulting, managed SOC, virtual CIO, managed security (threat protection, ZTNA).
- Crunchbase description: "Provides IT strategy, virtual CIO, channel, cyber risk, and digital transformation advisory services."

Current site positioning (3hue.net, Sept 2026)

- Headline: "Enterprise AI needs a governing layer. We build it." / "Lead with the decisions that make AI useful, governed, and real." / "Start with clarity. 10 business days."

- About: "founder-led advisory and managed services firm that helps regulated and operationally complex organizations turn AI ambition into governed, scalable execution." "The same advisor who scopes the work delivers it." "not a staffing firm."
- Three pillars: AI Advisory (AI Risk & Readiness Snapshot — 10-day diagnostic; AI Consulting; AI Governance; AI Readiness & Deployment) · Pro Services (SOC 2 Type II Readiness; AI-Enabled Expertise/staff aug; Risk Posture Assessment; IT Project Management) · Managed Services (Audit-Ready Security Program — ISMS/ERM/IR; Managed Security Operations; Technology Governance for Scale).
- Frameworks named on site: SOC 2 Type II, SR 11-7 (model risk), "ISG Managed GRC Operating Model", "Meta-Compliance Readiness", BSA/Fair Lending/DORA (FS page). NIST/ISO/ITIL/COBIT/TOGAF are NOT named on the current public pages (older WordPress pages at www.3hue.net/managed-grc-programs/ etc. exist but currently fail SSL/robots).
- Industries: Financial Services; SaaS & Digital Products; Transportation & Logistics / Energy & OT; Private Equity & Family Offices.
- Customer stories: Transit Technologies (portfolio of transit software cos; no formal security program → SOC 2 Type I zero findings, multi-entity Type II); Large North American Bank (cloud governance, 1,000+ systems certified, scalable GRC assessment framework); Rolly Marine (dealer mgmt system modernization, process maturity).
- Insights: 9 articles all dated 2026-01-20 (continuous compliance, DevSecOps, AI-powered compliance, AI risk in healthcare, enterprise AI red flags, Azure AI ecosystem, AI capability/people, compliance/governance/ethical AI, OpenAI direct implementation).
- No pricing published. No testimonial quotes. Founder-involved delivery is the stated differentiator.
- LinkedIn company page: <https://www.linkedin.com/company/3hue> ("Information Management Services").

AiVRIC (aivric.com) — AiVRIC Technologies, Inc., Wilmington, DE

- "AiVRIC was founded by 3HUE Security, a security advisory firm that has led security programs at enterprise scale."

- Mission: "Make autonomous, continuous security and compliance accessible to every organization that runs in the cloud — so that security teams spend their energy on decisions, not documentation."
- Positioning: "Operational Intelligence for Security, Compliance, Risk & AI Governance"; "Govern the agentic enterprise"; "From cloud telemetry to agentic action".
- Products: CloudSignals+RiskOps (available; multi-cloud CSPM, 350–500+ checks across AWS/Azure/GCP/OCI, 20+ frameworks incl. SOC 2, ISO 27001, PCI-DSS, CMMC, HIPAA, NIST; risk register; TPRM; GenAI chat; agentic remediation; white-label/MSP). AI Signals (beta), AIRE Agentic Mesh (alpha), RogueAgent ASPM (beta), Vision AI Optics (coming).
- Pricing: free tier (GCP); paid from \$499/mo; enterprise "request pricing"; SaaS / customer-hosted K8s / air-gapped.
- MSP page: "Add enterprise GRC and cloud security to your service catalog. Zero extra headcount required." Priced per cloud account monitored; three sellable tiers: Cloud Security Monitoring → Compliance-as-a-Service → vCISO-as-a-Service.
- Targets: enterprise SOC/GRC, cloud security, DevSecOps, PE firms/holding companies, MSPs/MSSPs.
- Founder thesis (LinkedIn, Feb 3 2026):
<https://www.linkedin.com/pulse/founder-thesis-why-aivric-exists-andrew-ramirez-wplwe> — "Most security programs fail not because teams don't care — but because they were never designed to operate continuously." Cites FDA 483s, bank MRAs, PE portfolio compliance. 27 reactions.
- Other Andrew Ramirez LinkedIn articles: "Stop Blaming Frameworks: How Security Architecture, Risk Management, and Control Standards Actually Work Together" (Mar 5 2026, 17 reactions, 2 comments); "The 7 AI User Personas" (Feb 17 2026); "Guilty Until Proven Human!" (Aug 30 2026); "Merit Is Judged After the Door" (Aug 29 2026).

Observations for marketing

- Two brands, one founder, one thesis: continuous, operated governance (3HUE = people/advisory/managed; AiVRIC = platform/evidence/automation). Public sites do not cross-reference each other except AiVRIC's about page.

- The framework anchors Nate mentioned (NIST, ISO, TOGAF, ITIL, COBIT, ISACA) are not visible on the current 3hue.net pages; the site leads with AI governance. This matters for search and for buyers who search by framework name.
- Proof points exist (SOC 2 zero findings; 1,000+ systems certified at a large bank) but no quotes, metrics-with-timeframes, logos, or named references beyond three stories.
