

3HUE YouTube channel — data + architecture (2026-09-02)

Published as artifact **"The 3HUE Channel"**:
<https://claude.ai/code/artifact/e6cacc32-098c-4fa7-ae3e-0bcd32cd9132>

All figures below from vidIQ, retrieved 2026-09-02, US-weighted. Volume = estimated monthly YouTube searches. Competition = vidIQ 0–100 (lower is more open).

Keyword demand

TERM	VOL/MO	COMP
iso 27001	19,957	29.7
soc 2	8,352	26.8
soc 2 explained	6,476	8.3
soc 2 report	5,320	12.2
what is soc 2 compliance?	5,303	9.6
ai governance explained	5,248	28.1
what is soc type 2 for cyber security	4,835	5.3
soc 2 compliance automation	4,724	13.0
soc 2 compliance checklist	4,685	5.3
cspm	4,633	26.2
how to get soc 2 certification	4,543	5.0
why soc 2 is bullshit	4,533	27.5
why does soc 2 feel like security theater	4,463	36.5
how to pass soc 2 audit	4,438	6.9

TERM	VOL/MO	COMP
soc 2 audit	3,998	7.3
what to look out for when reviewing soc 2 type 2 report	3,946	5.9
how long does iso 27001 take after soc 2	3,914	5.3
iso 27001 explained	3,602	18.6
how long soc 2 really takes	3,536	23.3
vciso	3,456	24.2
iso 27001 lead implementer training	8,118	15.9 (+85% vs baseline)

Larger but harder / cooling: - ai governance — 55,887, comp 42.1, **demand -25% vs baseline** - cloud security — 47,568, comp 50.2, **+34%** - identity and access management — 7,207, comp 23.2, **+85%** - microsoft security — 8,665, **+85%**

Dead terms (<750/mo — do not put in titles): "vciso services", "virtual ciso", "cloud security posture management" (spelled out; the acronym "cspm" is fine), "soc 2 certification", "iso 27001 compliance", "soc 2 compliance requirements".

Competitor channels (this niche scales)

CHANNEL	SUBS	NOTE
Dejan Kosutic	426K	ISO 27001/42001/NIS2/DORA consultant. +598% subs in 1y. 84 long + 527 shorts in 12 mo.
UnixGuy	322K	Cyber careers (adjacent, not a competitor)
Prabh Nair	185K	GRC/certification education
Summit 7	158K	CMMC/DoD only. +171%/y. Just 6 long videos in 12 mo → 577K views in 30d. Niche dominance works.
ControlCase	143K	US compliance firm (SOC 2/ISO/PCI/CMMC). +3,683% subs in 1y. Closest direct analogue.
Luv Johar	58.3K	GRC training. Shorts did 2.55M views in 1y.
ISO Training Institute	27.8K	

CHANNEL	SUBS	NOTE
Stuart Barker	10.6K	Solo ISO 27001 + SOC 2 consultant for startups. 1,332 videos. +99% subs/y. Closest to 3HUE's model.
ComplianceCow	10.1K	Agentic GRC automation — closest AiVRIC analogue. +5,744% subs in 1y.
GRCLab	5.4K	
Sprinto	5.2K	
SecureGovernance	4.1K	199 videos, 158 avg views — cautionary tale, high output no traction

The two decisive format findings

1. ControlCase is a controlled experiment: webinars lose by 3 orders of magnitude.

Short plain-English explainers: - Phishing Emails (8:18) — 2,960,874 - Password Managers (9:20) — 212,387 - Multi-Factor Auth (9:07) — 182,563 - Strong Passwords (7:01) — 177,113

Recorded webinars: - SOC 2 Compliance (28:16) — 1,641 - What is ISO 27001? (27:04) — 1,042 - Demystifying CMMC (1:09:15) — 671 - ISO 27001 for MSPs (25:32) — 647

Caveat: the big numbers are consumer-grade security topics that likely convert nothing. Take the *format* lesson, not the topic lesson.

2. Stuart Barker's outliers = contrarian + product + price. - "Why you don't need a GRC Platform for ISO 27001" (2:21) — **102,401** (biggest organic) - "ISO 27001 Toolkit Demo and Product Overview" (42:44) — 77,593 - "ISO 27001 Getting Started" (43:34) — 35,330 - "ISO 27001 Certification Cost Explained Simply" (14:13) — 30,928 - "ISO 27001 vs ISO 27002 Explained Simply" (5:57) — 13,711 - Clause-by-clause library: 2,000–10,000 each

Library average ≈ 1,000 views/video and it sustains a real business. Set expectations accordingly.

3. Shorts are the growth engine in this niche. Dejan 527/yr → 426K subs; Luv Johar shorts 2.55M views/yr; Stuart ~61/month.

The slate (six series)

SERIES	ROLE	LENGTH	CADENCE
Explained Simply	Reach — search capture	5–8 min	2/wk
The Control Room	Reach — reference library, SEO moat	8–15 min	1/wk
CEO's Corner (Nate × Andrew)	Trust — POV, clip factory	12–18 min	2/mo
Teardown (anonymised cases)	Proof — converts	15–25 min	1/mo
How We Work (processes)	Proof — sales collateral	6–10 min	fixed 6-part
The Stack (AiVRIC / tooling)	Proof — feeds free tier	8–20 min	2/mo
<i>Shorts</i>	distribution layer, cut from the above	30–60s	5/wk

CEO's Corner is deliberately not the flagship — nobody in this niche wins with founder-interview long-form, and ControlCase's own talking-head webinars are their worst performers. It earns its slot as the contrarian/POV band and as the clip factory for LinkedIn.

Phase 1 (months 1–3) = Explained Simply 8/mo + CEO's Corner 2/mo + the 6 How We Work videos + 12 shorts/mo. Achievable in **two filming days a month**.

Two open decisions for Nate

- 1. Channel identity** — recommendation: 3HUE as the channel, Andrew as face/voice, AiVRIC named only inside The Stack. Clips distribute from Andrew's personal LinkedIn.
- 2. Will 3HUE publish what things cost?** "What SOC 2 actually costs" is a top-five performer for every consultant who has made it, and 3hue.net publishes no

pricing. Engagement bands would suffice. If no, cut the video rather than making a vague one.

Measurement (first 90 days)

1. Search impressions on the SOC 2 cluster (YouTube Studio traffic sources) — the only phase-1 metric that matters
2. LinkedIn clip engagement vs. Andrew's article baseline (17–27 reactions)
3. "I saw your video" on sales calls — ask every call, write it down
