THE CAUTIONARY TALE: Francois B. Arthanas (@francois-b-arthanas)

16,700 subs | 103 videos | 708,430 views | founder of CyberProsAI, PhD scholar, sells Maven AI-governance cohort Positioned identically to what 3HUE would be. But his top videos are ALL certification training: · CompTIA Security+ SY0-701 Crash Course 190,553 · CompTIA Security+ 2023 Crash Course 162,730 · CompTIA CySA+ 2024 Crash Course 36,812 · Network+ N10-009 Crash Course 34,716 · Security Onion install guide 32,709 His actual governance/positioning content: · "The NIST Cybersecurity Framework CSF 2.0 - Explained in simple terms" .. 1,148 · "The Harsh Reality of Cybersecurity No One Talks About..." 503 · "The Truth about Cybersecurity - Your Company does NOT exist to be secure" 299 => He built 16.7K subs of job-seekers and cannot get 1,200 views on the thing he sells. THIS IS THE TRAP. Volume in this category is career intent, not buying intent.

ControlCase (@controlcasemedia) — THE FORMAT EXPERIMENT

TITLE SCORES (vidiq_score_title, long-form)

96 Who Owns AI Governance? (Nobody - And That's the Problem) 96 We Certified 1,000+ Systems at a Bank. Here's What Actually Fails an Audit. 96 The 10-Day AI Risk Snapshot: What We Find in Week One 95 Your Biggest Customer Just Sent a Security Questionnaire. Now What? 91 Why Your SOC 2 Passed and Your Security Still Failed 84 AI Governance Best Practices for Enterprise Organizations <- generic control 82 How to Write an AI Governance Audit Report (Step by Step) 78 ISO 42001 Explained for People Who Actually Have to Implement It

Pattern: specificity + stakes + a number beats category phrasing. "Best practices for enterprise organizations" is the weakest despite being the most conventional B2B phrasing. NOTE: the 78-scoring title targets "iso 42001 explained" which is BELOW FLOOR. A title can be well-built and still point at nothing — check the term before scoring the phrasing.

PART B — pull of 2026-09-09

WEEK-OVER-WEEK MOVEMENT (same terms, 2 Sep -> 9 Sep)

TERM	2 SEP	9 SEP	WEEK DELTA	VIDIQ GROWTH % (9 SEP)
ai governance	55,887	47,568	-14.9%	-34.0% (baseline 72,070)
iso 42001	13,560	17,487	+29.0%	+84.6% (baseline 9,475)
responsible ai	9,466	5,129	-45.8%	-62.1% (baseline 13,546)
ai governance framework	7,977	4,322	-45.8%	-30.1%
ai compliance	3,272	6,038	+84.5%	+84.5%
ai risk management	4,193	4,193	0%	flat (comp fell 37.3 -> 29.5)

US countryVolume for "ai governance" also fell: 21,734 -> 19,027 (US share 40% -> 41.7%).

THE CROSSOVER: the abstract concept vocabulary is falling; the concrete standard vocabulary is rising. Direction consistent across 5 of 6 terms and corroborated by Dejan's video data below. => Title with ISO 42001. Position with AI governance.

CAVEAT: -45.8% appears 3x and +84.5% appears 4x across unrelated terms. vidIQ appears to BAND its growth metric. Trust direction and rank order; do not quote magnitude as precise.
